EASTER

DISCO

Wednesday, 19th March
6.30 to 8.30pm

£1.00 (includes refreshments)

See You There

SCIENCE WEEK 10 - 17 MARCH

We were fortunate this year with Set^{Up} Science offering us three presentations. KS2 and a few students from 3RP went to the Ice Cream Factory. They saw a number of different animals and watched the process of making ice cream from milking the cows to the final sampling of the end product ☺
On Tuesday the whole school was involved at some part of the day with a Mathematics and Science presentation. Paul Stevenson took over the hall with about 20 or so different activities and challenges. Many of the tasks had several solutions. All day there was a 'buzz' of chatter as groups of students tried to solve the puzzles.
On Friday we had a presentation from the 'A' Team (Andy, Andy, Alex and Amy) four young people from

Bentley. They brought in different parts of a Bentley for the students to handle, and say where they would be used in a car.

Finally, the KS3 and 4 students involved in this presentation had to design their own 'Bentley'. Who knows what we will see being tested around Crewe in the future!!

Everyone had a very enjoyable time and I would like to thank the people who organise these presentations Set^{Up} Science is a local (Crewe and Nantwich) organisation who supports schools in the area during the National Science Week. If anyone is interested in helping this organisation, particularly during Science week, by representing them in local schools, I will be able to supply a name and contact number
